1. Introduction

This manual provides instructions for patients on how to use the myFamilyTree tool provided by the hospital. This tool allows the patient to share their family medical history for genetic investigation purposes, simplifying the pedigree creation and ensuring accuracy.

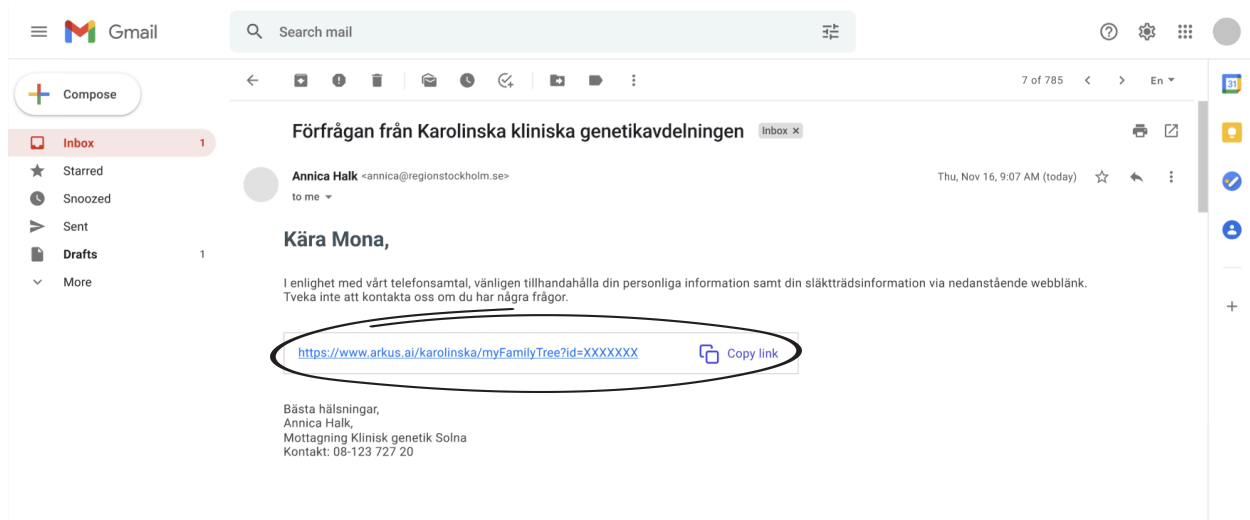

2. Getting Started

The myFamilyTree process begins when hospital staff send an SMS/email to the patient, which includes a link to the myFamilyTree tool. The patient should access the link and verify their identity to start the Pedigree Information Collection.

3. Using myFamilyTree for Pedigree Information Collection

Receiving the Link and Accessing the myFamilyTree Tool

- **Step 1:** The patient receives an SMS/email from the hospital with a link to the myFamilyTree tool.
- **Step 2:** Click on the link received from the hospital.

Entering Personal Identification Number

- **Step 1:** Upon accessing the myFamilyTree tool, you will be asked to verify your identity by logging in with your BankID. This step ensures that you are designated to give the Pedigree Information.

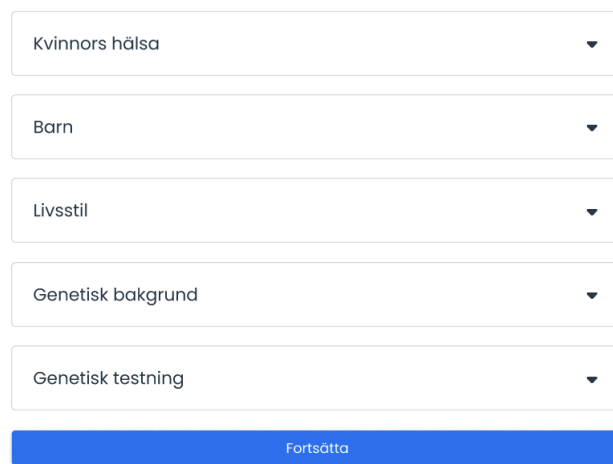

Completing the Personal Information

- **Step 1:** Answer questions regarding your medical history.

The screenshot shows the 'myFamilyTree' interface. At the top, there's a header with 'Arkus AI' on the left, 'myFamilyTree' in the center, and a flag icon on the right. Below the header, a breadcrumb trail reads 'Personlig information > Släkträd'. The main content area is titled 'Medicinsk historia' with an upward arrow icon. It contains the question 'Har du diagnostiserats med några andra tumörer förutom cancer?' with radio buttons for 'Ja' (selected) and 'Nej'. Below this is a text input field with the prompt 'Vänligen lägg till tumördiagnos och din ålder vid diagnos: Om känt, vilken typ av tumör diagnostiserades och när.' At the bottom of the form, there's another question: 'Har du för närvarande ett annat kön än det som tilldelades vid födseln?' with a small icon.

- **Step 2:** Answer the questions about your health and lifestyle habits.

This screenshot shows a vertical stack of five dropdown menus with the following labels: 'Kvinnors hälsa', 'Barn', 'Livsstil', 'Genetisk bakgrund', and 'Genetisk testning'. Each menu has a downward arrow icon on the right. Below these menus is a solid blue button with the white text 'Fortsätta'.

- **Step 3:** After adding all the information, click the button to continue.

This screenshot is similar to the previous one, showing the same dropdown menus and the 'Fortsätta' button. In this image, the blue 'Fortsätta' button is circled with a black oval to highlight it.

Creating the Family Tree

- **Step 1:** Start creating your Family Tree by adding how many relatives you have. Add only your biological family members. Then click the button to continue.

Skapa ett släkträd

Hur många av följande biologiska släktingar har du?

Fyll i så mycket av följande information som möjligt. Denna data kommer att användas för att hjälpa oss att skapa ett släkträd för dig.

0	Bröder	och/eller	0	Halvbröder
1	Systrar	och/eller	0	Halvsystrar
0	Söner			
0	Döttrar			
1	Farbröder			
0	Fastrar			
1	Morbröder			
0	Mostrar			

Har någon av dina biologiska släktingar någonsin fått cancerdiagnos? *

☒ Ja
 ☐ Nej
 ☐ Vet inte

Fortsätta

- **Step 2:** You will be guided by myFamilyTree tool to select relatives diagnosed with cancer. With all relatives selected, click the button to continue. If you have other relatives with a cancer diagnosis that are not in the family tree, you can add them later.

- **Step 4:** You also can add other relatives diagnosed with cancer to the Family Tree by clicking the “+” icon. Use this same icon to delete relatives if necessary.

- **Step 5:** After adding all the information, click the button to submit. If you need more time to complete all the details, save your progress and return later, using the link you received in the email and verifying your ID.

- **Step 6:** After submitting, wait until a confirmation screen appears. The hospital will be automatically notified when your data is submitted.

Tack!

Vi har mottagit din information om släkktredet. Du kan nu stänga den här fliken.
